

Product Introduction

This curtain motor uses an AC input DC motor with a torque of up to 1.2N, providing strong power and stable operation while ensuring quiet performance. Its unique automatic limit function allows for precise control, while the soft-start and soft-stop design further protects the curtain and extends their lifespan.

Features

- Powerful 1.2N torque
- Low-noise DC motor
- Soft start and soft stop
- Manual pull start
- Mechanical clutch design for easy manual control during power outages

Specification

- Model: MP82-T/G4
- Communication: ZigBee 3.0
- Input Voltage: 100-240VAC
- Rated Speed: 75 r/min (adjustable to 90/110)
- Rated Torque: 1.2 N·m
- Support Curtain Weight: 60kg (2m) 、 55kg (4m) 、 50kg (6m)
- Protection Rating: IP41
- Operating Temperature: 0 ~ 55°C

Networking method

1. Connect the power cable to energize the device.
2. Press the motor reset button 4 times in a row, release it and then press it for 3 seconds until the indicator light flashes, indicating that it has entered the network distribution mode.
3. Add the device to the network via the gateway.
