Secure Access, One Press Away

This durable and compact exit button features a brushed aluminum alloy faceplate and a green mechanical push button. With a self-resetting design and clear "PRESS TO EXIT" labeling, it's ideal for various access control systems. Suitable for offices, buildings, and secure zones, it offers long-lasting performance and easy installation.

At a Glance

- **Durable Design – Brushed Aluminum Alloy panel with high-strength mechanical button**

- **Self-Resetting – Momentary switch that returns automatically after each press**

- **Clear Labeling – "PRESS TO EXIT" for intuitive operation**

- **Wide Compatibility – Supports NO/NC output for most access control systems**

- **Compact Size – 86 × 86 × 33.5 mm (±3 mm), fits standard electrical boxes**

Specifications

- Dimension: 86 mm (L) × 86 mm (W) × 33.5 mm (H)

- Material: 4mm Aluminum Alloy panel with high-strength mechanical button

- Operating Voltage: DC 12–24V

- Rated Current: 5A

- Voltage Regulation: Built-in dropper resistor

- Switch Type: Momentary (self-resetting)

- Operating Temperature: -20°C to +50°C

- Storage Temperature: -20°C to +65°C

- Operating Humidity: 10%–90% RH

- Impact Protection Rating: IK10

- Environmental Compliance: RoHS, REACH, Halogen Free
